

to advance, promote &
improve agriculture
& horticultural industries

LINCOLNSHIRE
AGRICULTURAL SOCIETY

The **IMPACT Group** is a members group for young professionals, bringing together like-minded farmers and industry supporters. Established by the Lincolnshire Agricultural Society with its main aim to advance, promote and improve agriculture and horticultural industries for future generations. Members share a passion for Lincolnshire, its farming, countryside, food production and business. The group meets several times a year for industry visits, Audience With... events, training and social events to build both knowledge and to network.

The IMPACT Group's objectives include:

- A resource and network
- Knowledge transfer
- An opportunity for professionals working in Lincolnshire's rural land-based industries to share ideas and skills
- A mixture of social and business opportunities
- Reduced membership to the Lincolnshire Agricultural Society
- A programme of yearly events

While IMPACT Group Membership and visits are usually free, we highly recommend joining the Lincolnshire Agricultural Society at a reduced rate (£42) to support the group and receive priority booking on IMPACT Group events.

Membership Benefits include:

- Access to the Lincolnshire Show along with members facilities and discounts
- Complementary entry to the Lincolnshire Farming Conference
- Exclusive invitation and discounts to a range of our other events
- Exclusive news and updates
- Priority booking for IMPACT Group events that have restricted numbers
- Quarterly newsletter
